

THE CENTRAL BANK OF THE REPUBLIC OF UZBEKISTAN

STATISTICAL BULLETIN

January - December
2022

CONTENTS

Graphs and diagrams.....	7
I. MACROECONOMIC INDICATORS	
1.1. GDP and its structure	13
1.2. Consumer Price Index (CPI)	14
1.3. Inflation expectations of individuals and entrepreneurs	15
1.4. Balance of payments of the Republic of Uzbekistan (analytic representation).....	16
1.5. International investment position of the Republic of Uzbekistan (end of period)	18
1.6. International reserves of the Republic of Uzbekistan.....	20
II. MONETARY INDICATORS	
2.1. Central bank survey	22
2.2. Other depository corporations (commercial banks) survey.....	24
2.3. Depository corporations (banking system) survey	26
2.4. Monetary aggregates	28
III. MAIN INDICATORS AND INSTRUMENTS OF THE CENTRAL BANK MONETARY POLICY	
3.1. Policy rate.....	29
3.2. Required reserve ratios (till May 31, 2018).....	30
3.3. Required reserve ratios (from June 1 to September 30, 2018)	31
3.4. Required reserve ratios (from October 1, 2018 to June 30, 2019)	32
3.5. Required reserve ratios (from July 1, 2019 to August 4, 2021)	33
3.6. Balance of the required reserves (from August 5, 2021).....	34
3.7. Balance of the required reserves.....	35
3.8. Bonds issued by Central bank and placed between commercial banks.....	36
3.9. Results of the Central bank deposit auctions.....	37
3.10. Overnight deposits placed by commercial banks to Central bank.....	40
3.11. Exchange rates of foreign currencies against UZS (monthly average)	41
IV. FINANCIAL MARKETS	
4.1. Interbank money market	
4.1.1. Interbank deposit operations in national currency.....	42
4.2. Foreign exchange market	
4.2.1. Trades at the Uzbekistan republican currency exchange	43
4.2.2. Foreign currency purchase and sale transactions of commercial banks with individuals	44
4.2.3. Foreign currency purchase and sale transactions of commercial banks with individuals (by currencies).....	45

V. CREDIT INSTITUTIONS PERFORMANCE

5.1. General information

5.1.1.	Number and structure of credit institutions	46
5.1.2.	Main indicators of commercial banks performance	47
5.1.3.	Banking system indicators to GDP ratio	48
5.1.4.	Capital adequacy of banking sector.....	49
5.1.5.	Liquidity dynamics of banking sector	50
5.1.6.	Income and expense of banking sector (since the beginning of the year)	51
5.1.7.	Profitability indicators of banking sector	52
5.1.8.	Financial Soundness Indicators of banking system in 2022 (end of period)	53
5.1.9.	Non-performing loans of commercial banks (NPL).....	56
5.1.10.	Comparative indicators of banking system	57
5.1.11.	Consolidated balance of commercial banks	60
5.1.12.	Main performance indicators of commercial banks grouped by asset size	61
5.1.13.	Commercial banks grouped by capital size	62
5.1.14.	Consolidated balance of microfinance organizations	64
5.1.15.	Main performance indicators of microfinance organizations (MCO) grouped by asset size ...	65
5.1.16.	Microfinance organizations (MCO) grouped by capital size	66
5.1.17.	Consolidated balance of pawnshops.....	68
5.1.18.	Main performance indicators of pawnshops grouped by asset size.....	69
5.1.19.	Pawnshops grouped by capital size	70

5.2. Borrowings

5.2.1.	Deposits attracted by commercial banks in national currency	72
5.2.2.	Balance of deposits in commercial banks	73
5.2.3.	Balance of deposits in commercial banks (by type).....	74
5.2.4.	Balance of national currency deposits of individuals in commercial banks (by type)	75
5.2.5.	Balance of foreign currency deposits of individuals in commercial banks (by type).....	76
5.2.6.	Balance of national currency deposits of legal entities in commercial banks (by type).....	77
5.2.7.	Balance of foreign currency deposits of legal entities in commercial banks (by type)	78
5.2.8.	Bank interest rates on national currency deposits (weighted average interest rates, annual)....	79
5.2.9.	Bank interest rates on foreign currency deposits (weighted average interest rates, annual)	80

5.3. Lending

5.3.1.	Loans extended by commercial banks (by client category)	81
5.3.2.	Loans extended by commercial banks (by sectors)	82
5.3.3.	Loans extended by commercial banks (by purposes)	83
5.3.4.	Outstanding loans of commercial banks (by client category)	84
5.3.5.	Outstanding loans of commercial banks (by maturity)	85
5.3.6.	Outstanding loans of commercial banks (by sectors)	86
5.3.7.	Outstanding loans of commercial banks (by purposes)	87
5.3.8.	Bank interest rates on national currency loans (weighted average interest rates, annual).....	88
5.3.9.	Bank interest rates on foreign currency loans (weighted average interest rates, annual).....	89
5.3.10.	Loans extended to individuals and small businesses for entrepreneurial purposes	90
5.3.11.	Loans extended to individuals and small businesses for entrepreneurial purposes (by main directions)	91
5.3.12.	Loans extended to individuals and small businesses for entrepreneurial purposes (by sectors)	92
5.3.13.	Loans extended through developing family entrepreneurship programs	93
5.3.14.	Loans extended by commercial banks through credit lines attracted under government guarantee (since the beginning of the year).....	94
5.3.15.	Mortgage loans extended to individuals	95
5.3.16.	Loans extended to individuals (by type)	96

VI. MAIN INDICATORS OF PAYMENT SYSTEM

6.1.	Payments through the Interbank payment system	97
6.2.	Transactions effected by the Clearing system of Central bank	98
6.3.	Transactions effected by Instant payment system of Central bank	99
6.4.	Number of bank cards, POS-terminals, ATMs, self-service kiosks and transactions through POS-terminals	100
6.5.	Number of users of remote banking services	101
6.6.	List of payment system operators	102
6.7.	List of payment organizations	103
6.8.	List of electronic money systems	107

VII. SUMMARY METHODOLOGY..... 109

Symbols and notes:

“ ” – indicator is equal to nil;

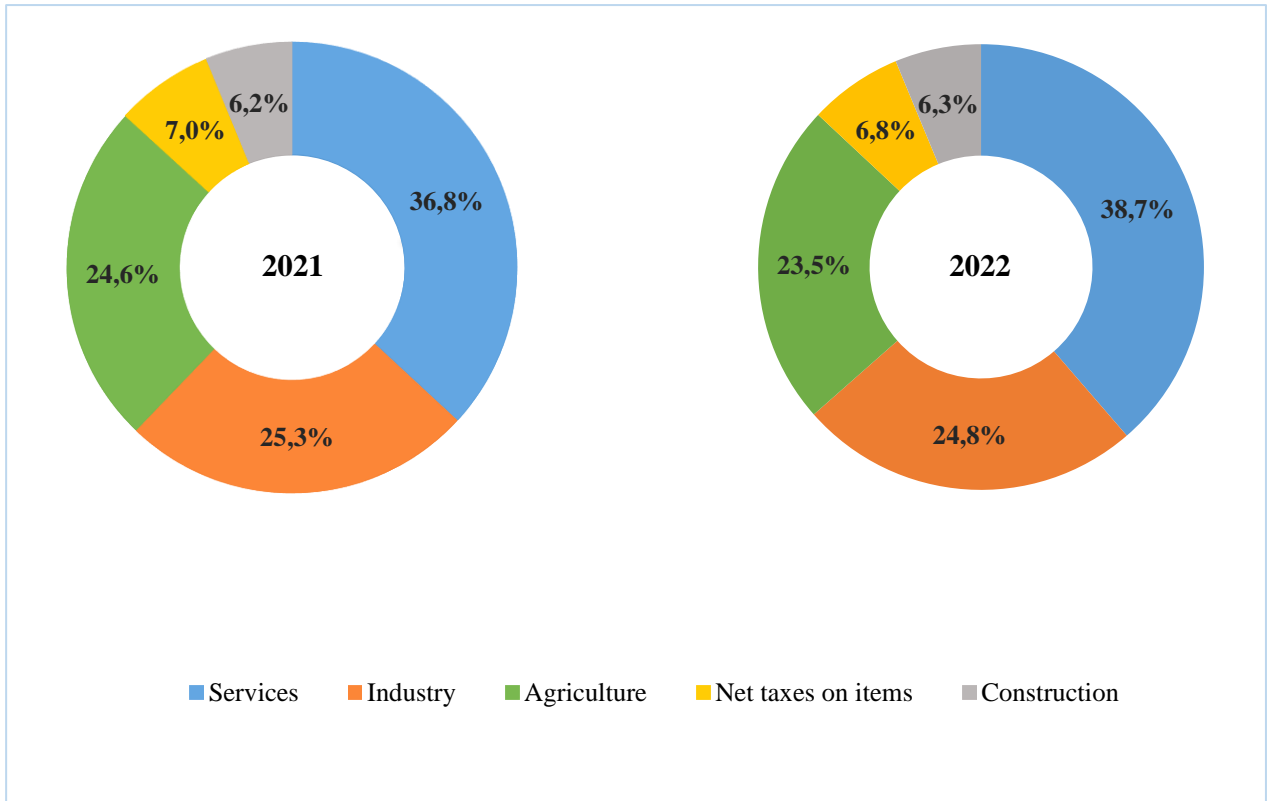

“0,0” – non-significant volume;

“x” – data are not published.

In some cases minor discrepancies between totals and sums of items are due to rounding.

“Statistical bulletin of the Central bank of the Republic of Uzbekistan” is available on the official website of the Central bank (<http://www.cbu.uz>).

Structure of GDP*

Structural changes of GDP*
(real growth compared to previous year, in percentages)

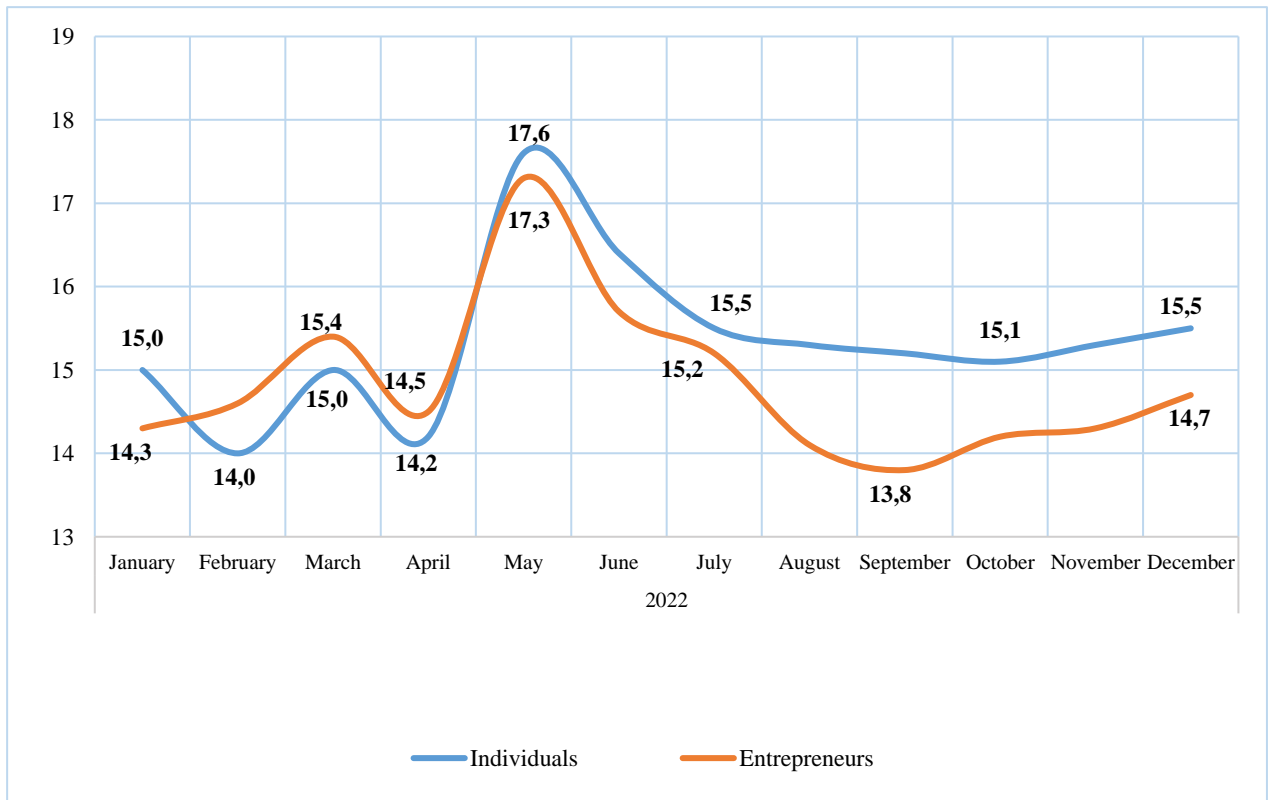

* According to preliminary data of the Agency of Statistics under the President of the Republic of Uzbekistan.

Consumer Price Index (CPI) and its components*
(annually, in percentages)

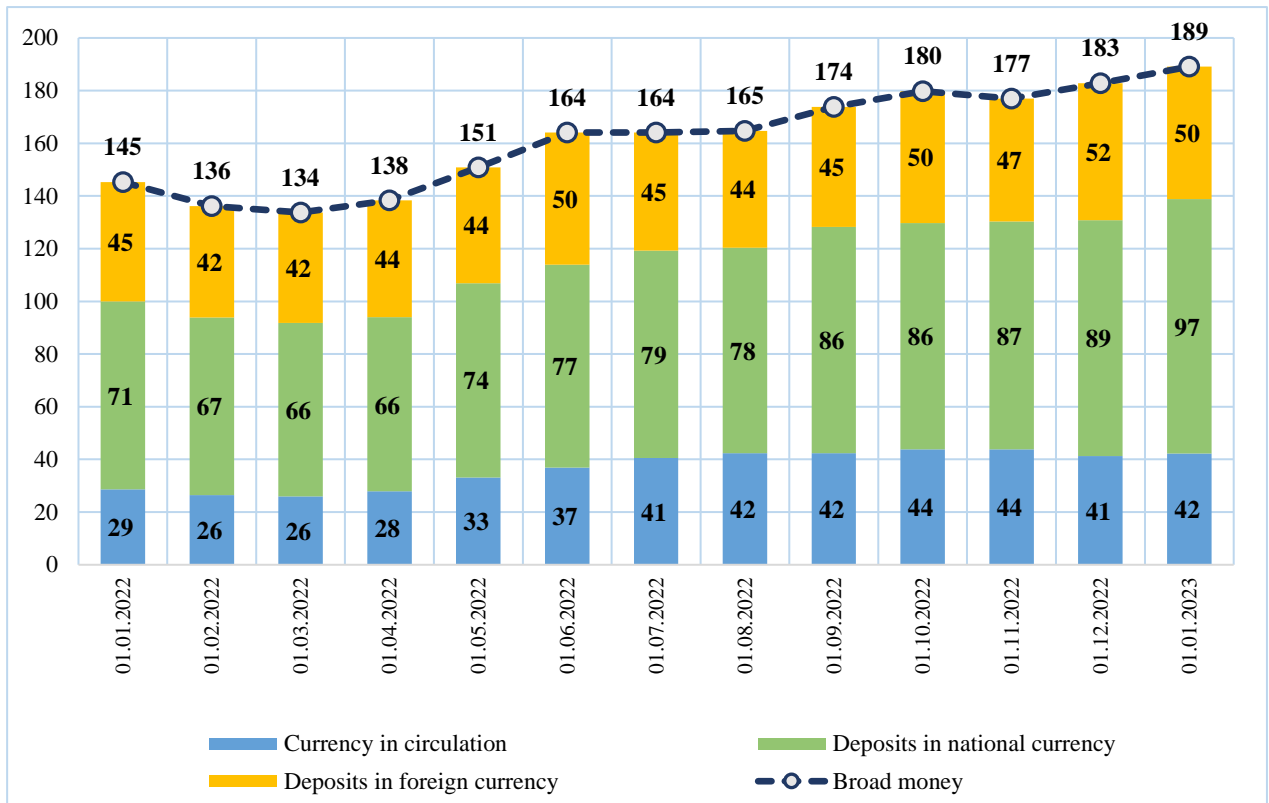

Inflation expectations of individuals and entrepreneurs
(annually, in percentages)

* According to preliminary data of the Agency of Statistics under the President of the Republic of Uzbekistan.

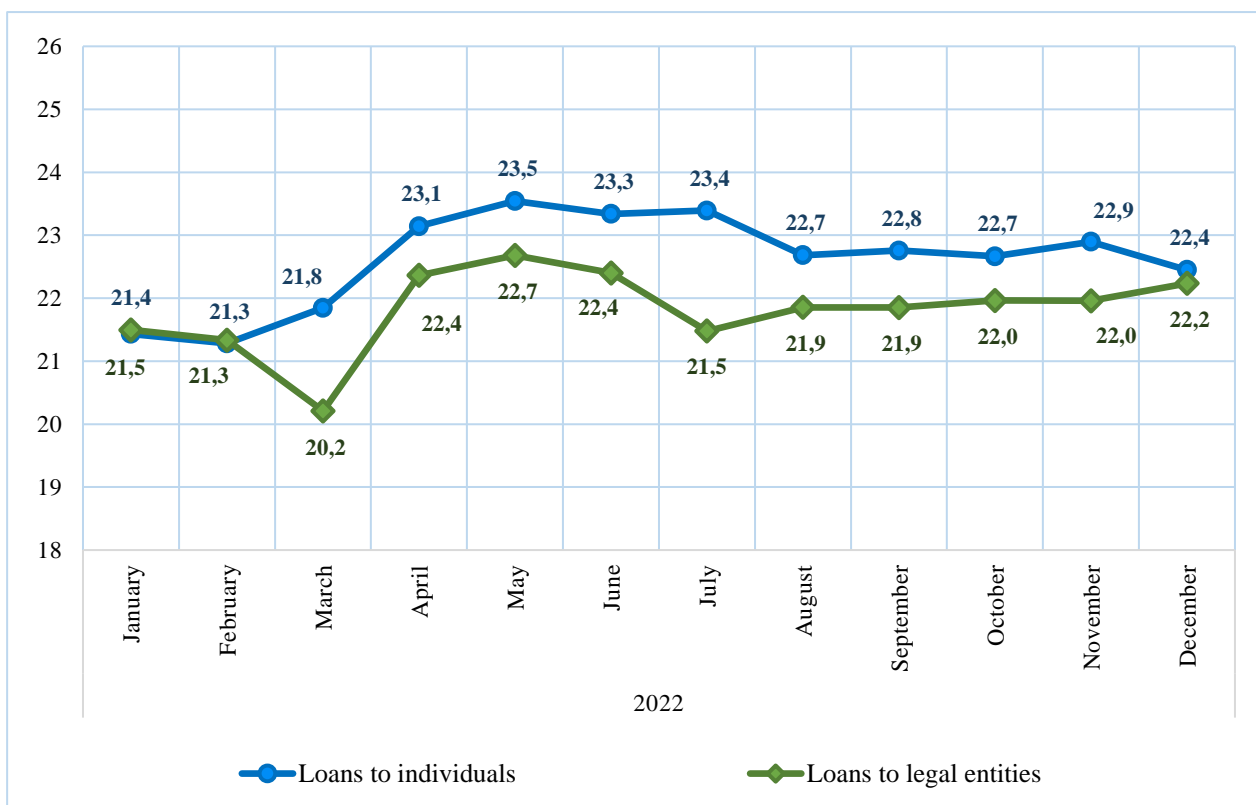

Structure and dynamics of Broad money (trillions of UZS)

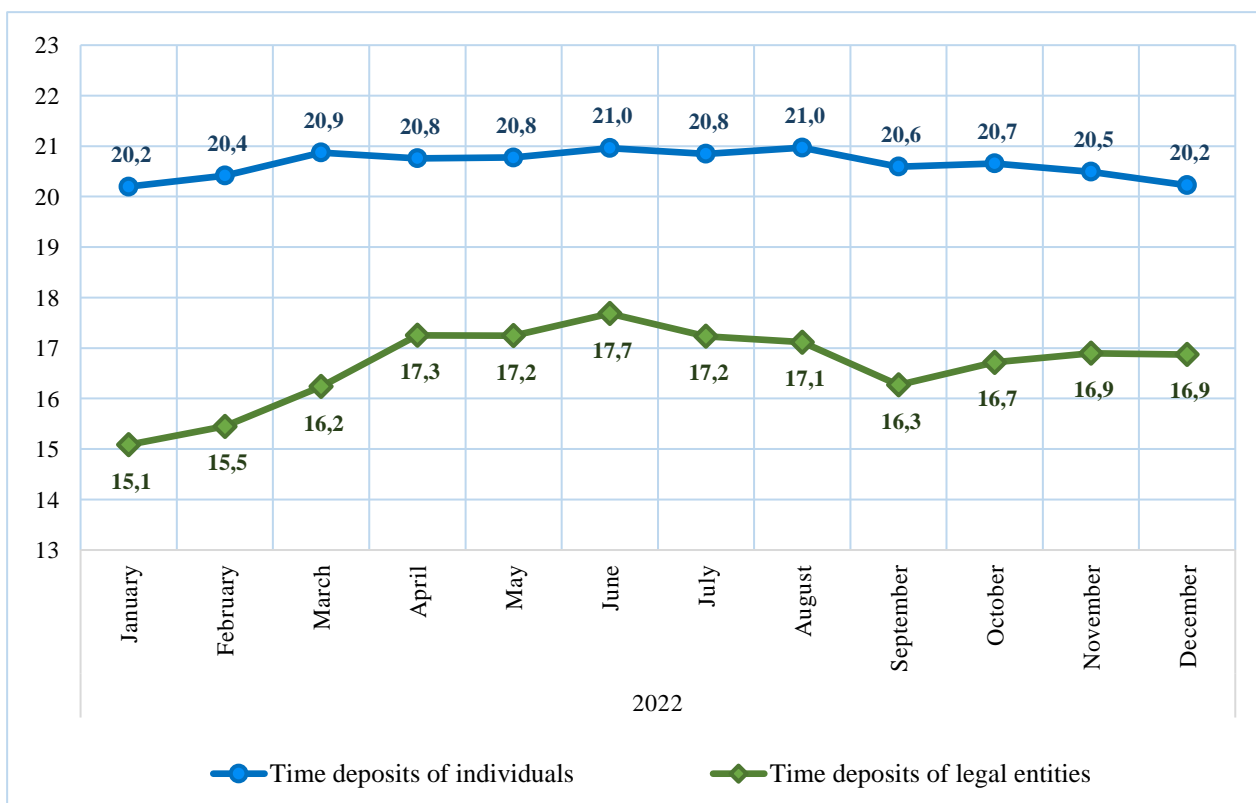

Credits to the economy and its composition (trillions of UZS)

Bank interest rates on national currency loans
(weighted average interest rates, annual)

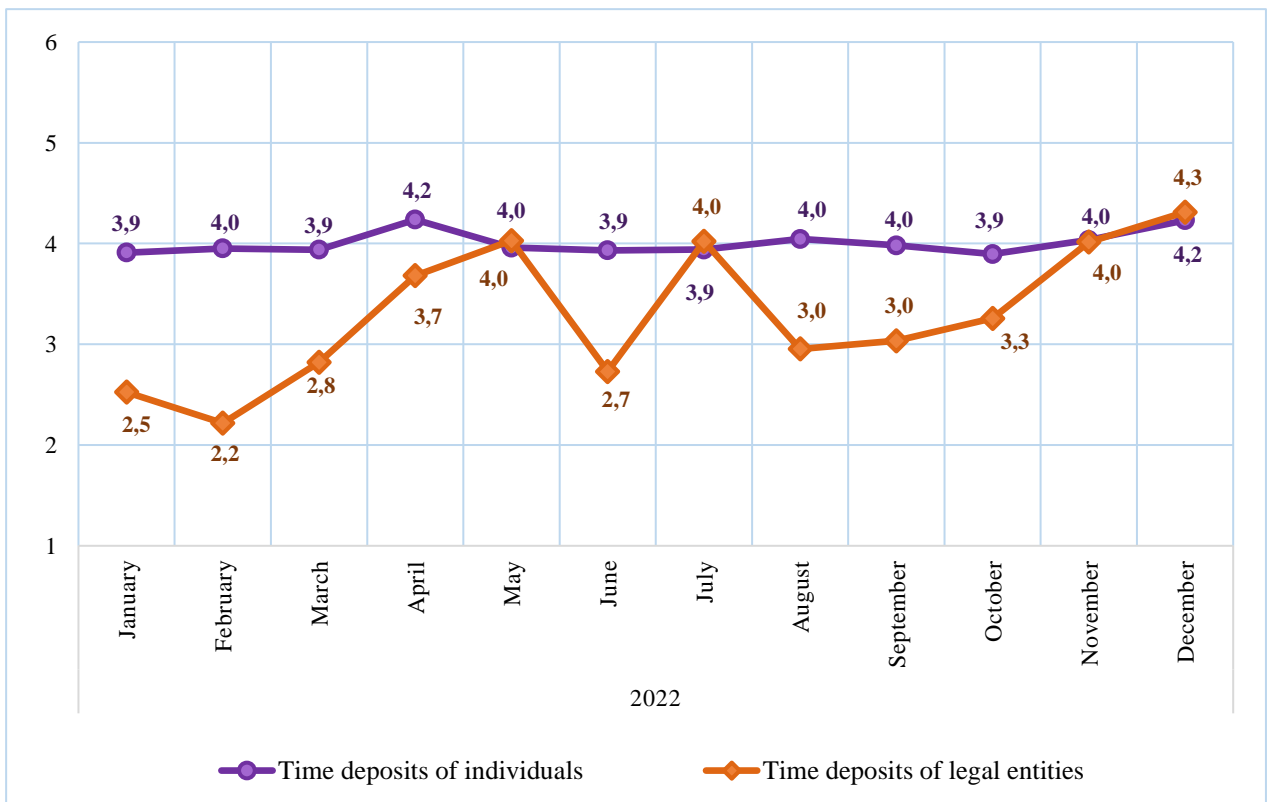

Bank interest rates on national currency deposits
(weighted average interest rates, annual)

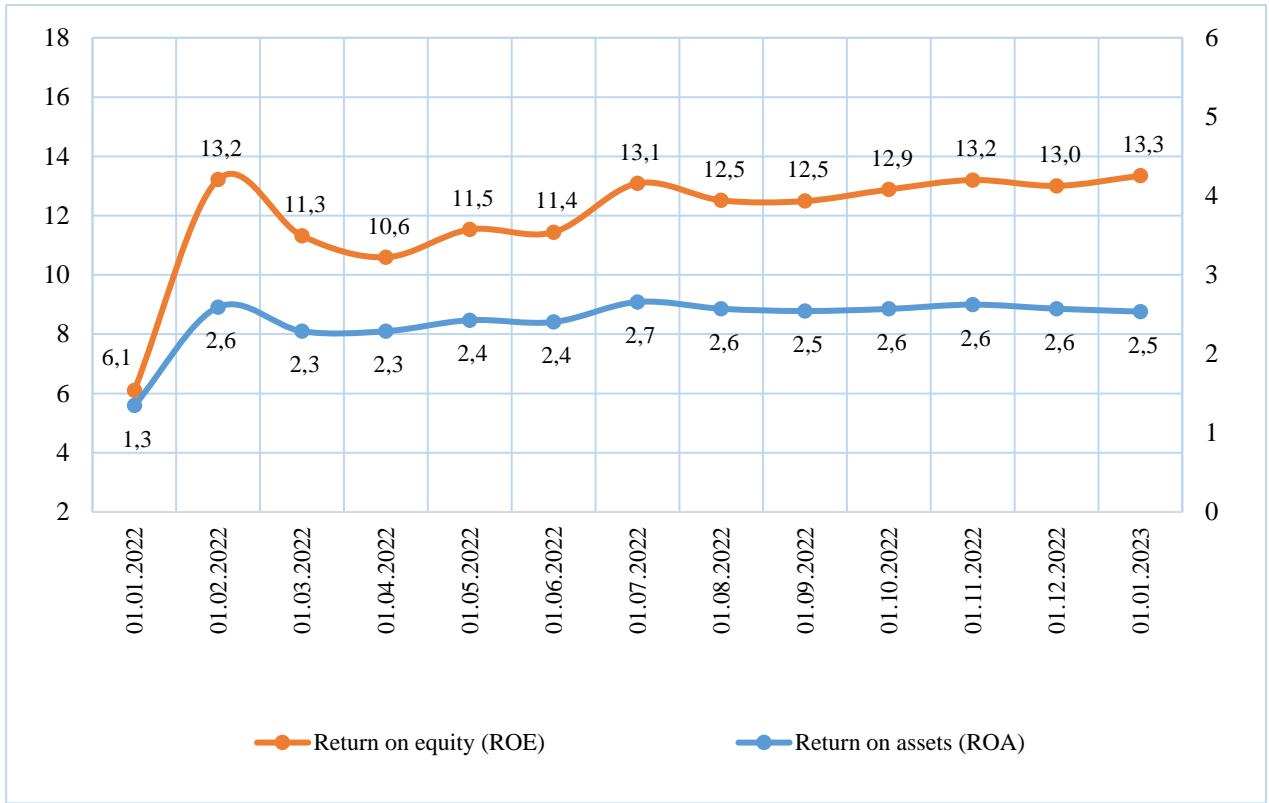

Bank interest rates on foreign currency loans
(weighted average interest rates, annual)

Bank interest rates on foreign currency deposits
(weighted average interest rates, annual)

Profitability indicators of banking sector (percent)

01.02.1995 - 19.03.1995	250
01.10.1994 - 31.01.1995	225
02.05.1994 - 30.09.1994	150
02.05.1994 - 30.09.1994	150

* Defined as Refinancing rate until December 1, 2019

Table 3.2

Required reserve ratios

(till May 31, 2018)

percentage terms

Period of validity	For deposits of legal entities with maturity less than 1 year and demand deposits in national currency	For deposits of legal entities with maturity from 1 to 3 years in national currency	For deposits of legal entities with maturity over 3 years in national currency	For deposits of legal entities in foreign currency
1	2	3	4	5
from May 1, 1994	30		10	30
from January 1, 1995	25		10	25
from June 1, 1996	25		10	
from December 1, 1997	20		10	
from May 1, 2000		20		
from February 1, 2005		15		5
from August 1, 2005		15		8
from September 1, 2007			13	
from November 1, 2008			15	
from September 1, 2009	15	12	10,5	The same ratios are for deposits in foreign currency

Table 3.3

Required reserve ratios
(from June 1 to September 30, 2018)

percentage terms

Type of liabilities	Term	Required reserve ratio
1	2	3
Deposits of legal entities in national currency*	2 year and over	0
	from 1 to 2 years	7
	other liabilities	14
Deposits of legal entities in foreign currency	2 year and over	0
	from 1 to 2 years	8
	other liabilities	16
Deposits of individuals in national currency*	2 year and over	0
	from 1 to 2 years	2
	other liabilities	4
Deposits of individuals in foreign currency	2 year and over	0
	from 1 to 2 years	3
	other liabilities	6

* These types of liabilities are subject to averaging ratio (0.1)

Table 3.4

Required reserve ratios
(from October 1, 2018 to June 30, 2019)

percentage terms

Type of liabilities	Term	Required reserve ratio
1	2	3
Deposits of legal entities in national currency*	2 year and over	0
	from 1 to 2 years	2
	other liabilities	4
Deposits of legal entities in foreign currency	2 year and over	0
	from 1 to 2 years	7
	other liabilities	14
Deposits of individuals in national currency*	2 year and over	0
	from 1 to 2 years	2
	other liabilities	4
Deposits of individuals in foreign currency	2 year and over	0
	from 1 to 2 years	7
	other liabilities	14

* These types of liabilities are subject to averaging ratio (0.1)

Table 3.5

Required reserve ratios
(from July 1, 2019 to August 4, 2021)

percentage terms

Type of liabilities	Required reserve ratio
1	2
Deposits of legal entities in national currency*	4
Deposits of legal entities in foreign currency	14
Deposits of individuals in national currency*	4
Deposits of individuals in foreign currency	14

* From July 1, 2019 till April 1, 2020 these types of liabilities were subject to averaging ratio of 0.25, from April 1, 2020 to June 14, 2020 the averaging ratio is 0.35, and starting from June 15, 2020 to August 4, 2021 the averaging ratio is 0.75

Table 3.6

Required reserve ratios

(from August 5, 2021)

percentage terms

Type of liabilities	Required reserve ratio
1	2
Deposits of legal entities in national currency*	4
Deposits of legal entities in foreign currency	18
Deposits of individuals in national currency*	4
Deposits of individuals in foreign currency	18

* These types of liabilities are subject to averaging ratio (0.8)

Table 3.7

Balance of the required reserves

billions of UZS

VII. SUMMARY METHODOLOGY

Section I. Macroeconomic indicators

Table 1.1. GDP and its structure

This table is calculated by the State committee of the Republic of Uzbekistan on Statistics based on a production method.

Gross Domestic Product (GDP) – monetary value of all finished goods and services produced during a particular period in a country.

Table 1.2. Consumer Price Index (CPI)

Consumer Price Index (CPI) – an indicator of the change in the general level of prices for goods and services purchased by the population for consumption. The CPI is calculated as the ratio to the cost of fixed set of goods and services in the prices of the current period to its value in the prices of the previous (basic) period.

Table 1.3. Inflation expectations of individuals and entrepreneurs

Inflation expectation – assumptions on inflation made by individuals and entrepreneurs for the upcoming period. Manufacturers and consumers, vendors and buyers define future investment, credit, financial and pricing policies, assesses income, expenses and estimated profit based on inflation expectations.

Inflation expectation is determined on inquiries conducted with individuals and entrepreneurs.

Table 1.4 Balance of payments of the Republic of Uzbekistan

Balance of payments is a statistical report that reflects exhaustive economic transactions between residents and non-residents for a certain period of time.

The balance of payments is prepared on the basis of a common international methodology in accordance with the sixth edition of “Balance of Payments and International Investment Position Manual” (BPM 6, 2009) of the International monetary Fund (IMF).

Debit and credit production composes the basis of the accounting system at the individual transaction level. Each transaction is recorded in the form of two equal and opposite entries, representing the inflow and outflow elements of each exchange.

Current account reflects exports and imports of goods and services, as well as primary and secondary income between residents and non-residents.

Current account indicators are calculated on the basis of data from the State Customs Committee, the State Statistics Committee, the Central Bank, the Ministry of Finance, the State Border Protection Committee, commercial banks and economic entities by making calculations in accordance with IMF standards and applying expert evaluation.

Goods comprise of transactions with goods that cross the border of the country and involves change of ownership between residents and non-residents on the basis of data on the import of goods to the Republic of Uzbekistan and the export of goods from the Republic of Uzbekistan. The value of imported goods is estimated in FOB prices (the cost of goods, taking into account the costs of transportation and insurance to the border of the exporting country). In this connection, the value of goods includes adjustments in order to reflect the value of services for the transportation and insurance of goods separately as imports of services from non-residents.

Services include useful labor, which does not produce a tangible commodity, performed by residents to non-residents and by non-residents to residents during the reporting period.

Primary income includes income of residents received from non-residents as wages (salaries) and investment income (for instance dividends on investments).

Secondary income shows current transfers between residents and non-residents. Transfers are transactions involving the presentation of a good, service, financial or other asset without obtaining another object with economic value in return.

Capital account reflects capital transfers receivable and payable, as well as the acquisition and disposal of non-produced non-financial assets between residents and non-residents.

Non-produced non-financial assets include rights to natural resources, contracts, leases and licenses, which are recognized as economic assets, as well as marketing assets. Capital transfers include transfer of capital assets, debt forgiveness and other transactions.

Capital account transactions are calculated on the basis of data obtained from the Central Bank, the Ministry of Finance, the State Customs Committee and commercial banks.

Financial account reflects transactions related to financial assets and liabilities between residents and non-residents of the Republic of Uzbekistan, such as the receipt and repayment of loans, securities trading, investment activities and others (trade loans, insurance, pension and standard guarantee programs, other receivables and payables).

In contrast to previous accounts, where transactions are debited and credited on a double-entry basis, transactions in financial account are divided into assets and liabilities.

Financial account transactions are calculated in accordance with IMF standards and through the use of expert evaluation based on data from the Central Bank, the Ministry of Finance, the State Statistics Committee, commercial banks and economic entities.

Investments include funds, securities, other types of property, as well as property rights having a monetary value and other types of rights invested in the objects of economic and other activity with a view of gaining profit.

Reserve assets are particular claims of monetary policy regulation authorities on non-residents that should be actually existing assets in foreign currencies. Reserve assets include only highly liquid and high-quality assets.

Errors and omissions are discrepancies between balance of payments accounts that may arise as a result of independent evaluation of its components, which reflects the result of combining information obtained from different sources.

Table 1.5 International investment position of the Republic of Uzbekistan

International investment position shows the balance of the country's external financial assets (residents' claims on non-residents) and liabilities (non-residents' claims on residents) for a certain period of time.

Assets and liabilities are classified into direct and portfolio investments, financial derivatives, reserve assets of the country and other investments.

The balances of assets and liabilities at the beginning and at the end of the period are reconciled through the transactions recorded in the financial account of the balance of payments, taking into account adjustments which are not recorded in the financial account such as changes in exchange rates, asset values and other transactions.

International investment position is compiled in accordance with the sixth edition of the Balance of Payments and International Investment Position Manual (BPM6, IMF, 2009)

Table 1.7. International reserves of the Republic of Uzbekistan

The methodological framework for compilation of statistics on international reserves provided by the sixth edition of “Balance of Payments and International Investment Position Manual” (BPM 6, 2009) and “International reserves and foreign currency liquidity: guidelines for a data template” (2013) of IMF.

According to IMF methodological publications, international reserves (reserve assets) are considered to be external assets that are freely available to and controlled by monetary authorities to meet the financing needs of the balance of payments deficit, to intervene in foreign exchange markets to influence the exchange

rate and for other relevant purposes (such as maintaining confidence in the national currency and the economy, and as a basis for external borrowing).

Reserve assets – see methodological comment to table 1.4.

Reserve assets include monetary gold, special drawing rights (SDRs), reserve position in the IMF, and other reserve assets in foreign currency.

The data are presented in the equivalent of millions of US dollars on the basis of the official exchange rates of foreign currencies established by the Central bank, the SDR rate published on the official website of the IMF, and the morning fixing price of gold set by the London Bullion Market Association on the last day of the reporting period.

The article "**Securities**" includes highly liquid, marketable equity and debt securities data. Only foreign currency securities issued by non-residents are included in this article.

Deposits refer to those available on demand. Consistent with the liquidity concept, these generally refer to demand deposits and term deposits that are redeemable upon demand or at very short notice without unduly affecting the value of the deposit. Deposits included in reserve assets are those held in foreign Central banks, the Bank for International Settlements (BIS), and other non-resident banks. Data on deposits in reserve assets should include short-term foreign currency loans, which are redeemable upon demand, made by the monetary authorities to non-resident banking entities.

Currency holdings are reported under the article "Total currency and deposits" and consist of foreign currency notes and coins in circulation and commonly used to make payments.

IMF reserve position is the sum of the "reserve tranche", that is foreign currency amounts that a member country may draw from the IMF at short notice with short notice, and any indebtedness of the IMF in the "General resources account" that is readily available to the member country including the reporting country's lending to the IMF under the "General arrangements to borrow" and the "New arrangements to borrow". Claims on the IMF that are denominated in SDRs are regarded as foreign currency claims.

SDRs (Special drawing rights) are international reserve assets the IMF created to supplement the reserves of the IMF member countries, which are allocated in proportion to their respective quotas. Holdings in the SDR represent unconditional rights to receive foreign currency and other reserve assets from other IMF member countries.

The article "**Gold**" refers to gold the authorities own and includes gold bullion and unallocated gold accounts with non-residents that give title to claim the delivery of gold. Gold bullion takes the form of coins, ingots or bars with a purity of at least 995 parts of 1000 including such gold held in allocated gold accounts. Gold held by monetary authorities as a reserve asset is shown in this article.

Other reserve assets include assets that are liquid and readily available to the monetary authorities but not included in the other categories of reserve assets.

Other foreign currency assets are liquid foreign currency assets held by monetary authorities that are not included in reserve assets. The foreign currency claims of monetary authorities to residents are examples of items included in this article.

Section II. Monetary indicators

Central bank survey, Other depository corporations (commercial banks) survey, Depository corporations (banking system) survey and Monetary aggregates represented in this section are compiled on the basis of standard reporting forms using the concepts, forms and classifications defined in the IMF's Monetary and Financial Statistics Manual and Compilation Guide (MFSMCG, 2016).

Table 2.1 Central bank survey

Central bank survey is compiled on a monthly basis by using the balance accounts of the Central bank of Republic of Uzbekistan. Central bank survey contains the following main components as follows.

Net foreign assets represent the difference between all foreign assets (claims on nonresidents and monetary gold) and foreign liabilities (liabilities to nonresidents) of the Central bank.

Monetary gold - gold that meets international standards held by Central bank as a reserve asset.

Claims on nonresidents are the Central bank's foreign currency holdings in cash, funds in correspondent accounts and deposits opened in nonresident banks and interest accrued on them as well as SDRs holdings and reserve position in the IMF.

Liabilities to nonresidents are attracted deposits and loans of the Central bank from nonresidents, including interest accrued on them as well as SDRs allocations.

Claims on other depository corporations are loans extended by the Central bank to commercial banks and funds in deposit and correspondent accounts opened in commercial banks.

Net claims on central government – the difference between claims and liabilities of the Central bank to central government.

Claims on central government – securities issued by Central government owned by the Central bank.

Liabilities to central government are attracted by the Central bank deposits of central government and interest accrued on them.

Funds of Fund for Reconstruction and Development – funds of Fund for Reconstruction and Development in the accounts of the Central bank.

Claims on other sectors include the Central bank's claims on other financial corporations, state and local government, public nonfinancial corporations and private sector.

Claims on other financial corporations – loans extended by the Central bank to other financial corporations and interest accrued on them, advance payments made by the Central bank to other financial corporations as well as securities issued by other financial corporations owned by the Central bank and other financial claims.

Claims on state and local government – loans extended by the Central bank to state and local government and interest accrued on them, advance payments made by the Central bank to state and local government, and other financial claims.

Claims on public nonfinancial corporations – are loans extended by the Central bank to public nonfinancial corporations and interest accrued on them, advance payments made by the Central bank to public financial corporations, investments in subordinate organizations of the Central bank and other financial claims.

Claims on private sector – loans extended by the Central bank to private sector (other nonfinancial corporations, households and others) and interest accrued on them, advance payments made by the Central bank to private sector as well as securities issued by private sector owned by the Central bank and other financial claims.

Monetary base includes currency outside of the Central bank, liabilities of the Central bank to other depository corporations and other sectors.

Currency outside of the Central bank – currency in cash issued by the Central bank with the exception of cash in national currency in the vault of the Central bank.

Liabilities to other depository corporations reflect the funds of commercial banks in correspondent accounts and in the account for required reserves in the Central bank.

Required reserves – funds of commercial banks in the account for required reserves in the Central bank.

Funds in correspondent accounts illustrates funds in the correspondent accounts of commercial banks in the Central bank.

Liabilities to other sectors – deposits of other sectors in the Central bank that are included in broad money.

Other liabilities to other depository corporations – deposits of commercial banks in the Central bank that are not included in monetary base and Central bank bonds owned by other depository corporations.

Deposits and securities other than shares excluded from monetary base – illustrates deposits of other sectors in the Central bank that are not included in the broad money. Moreover, it also reflects securities issued by the Central bank and owned by other sectors which are excluded from broad money.

Loans – credit funds attracted by the Central bank from other sectors.

Financial derivatives reflect unrealized losses or deferred gains on forward transactions, swaps and revaluation of options and futures.

Shares and other equity include authorized and reserve capital, devaluation reserves, and retained earnings of the Central bank.

Other items (net) – the difference between unclassified assets and liabilities.

Table 2.2. Other depository corporations (commercial banks) survey

Other depository corporations (commercial banks) survey is compiled monthly on the base of consolidated balance sheet of commercial banks. Other depository corporations survey contains the following main components as follows.

Net foreign assets represent the difference between all foreign assets (claims on nonresidents) and all foreign liabilities (liabilities to nonresidents) of commercial banks.

Claims on nonresidents are commercial banks' foreign currency holdings in cash, funds on correspondent accounts, deposits and interest accrued on them as well as loans, investments and advance payments to nonresidents.

Liabilities to nonresidents are deposits and loans as well as interest accrued on them and subordinated debts attracted by commercial banks from nonresidents.

Claims on Central bank include cash in national currency, reserve deposits, securities other than shares, and other claims on the Central bank.

Currency– cash in national currency in vaults of commercial banks.

Reserve deposits and securities other than shares – funds of commercial banks on correspondent and the required reserves accounts in the Central bank as well as funds in other deposit accounts that are not included in monetary base.

Other claims on Central bank – bonds of the Central bank owned by commercial banks that are not included in monetary base.

Net claims on central government – the difference between claims and liabilities of commercial banks to central government.

Claims on central government include loans extended by commercial banks to central government and interest accrued on them as well as securities issued by Central government and owned by commercial banks.

Liabilities to central government – loans of central government to commercial banks, funds of central government on transferable, savings, time and other deposit, held at commercial banks as well as interest accrued on them.

Funds of Fund for reconstruction and Development are credit funds of Fund for reconstruction and development attracted by commercial banks.

Claims on other sectors are claims of commercial banks on other financial corporations, state and local government, public nonfinancial corporations, and private sector.

Claims on other financial corporations – loans extended by commercial banks to other financial corporations and interest accrued on them, advance payments made by commercial banks to other financial corporations as well as securities issued by other financial corporations owned by commercial banks and other financial claims.

Claims on state and local government – loans extended by commercial banks to state and local government and interest accrued on them, advance payments made by commercial banks to state and local government, and other financial claims.

Claims on public nonfinancial corporations – are loans extended by commercial banks to public nonfinancial corporations and interest accrued on them, advance payments made by commercial banks to public financial corporations as well as securities issued by public nonfinancial corporations owned by commercial banks and other financial claims.

Claims on private sector – loans extended by commercial banks to private sector (other nonfinancial corporations, households and others) and interest accrued on them, advance payments made by commercial banks to private sector as well as securities issued by private sector owned by commercial banks and other financial claims.

Liabilities to Central bank – loans of Central bank to commercial banks as well as funds of Central bank on correspondent accounts and deposits in commercial banks.

Transferable deposits included in broad money – transferable deposits of other financial corporations, public nonfinancial corporations, and private sector in commercial banks as well as interest accrued on them.

Other deposits included in broad money – funds of Other financial corporations, public nonfinancial corporations and private sector on saving, time and other deposits in commercial banks as well as interest accrued on them.

Securities other than shares included in broad money - saving and time deposit certificates issued by commercial banks and owned by other financial corporations, public nonfinancial organizations, and private sector as well as interest accrued on them.

Deposits excluded from broad money – transferable, saving and time deposits of state and local government held at commercial banks.

Securities other than shares excluded from broad money – bonds issued by commercial banks owned by other sectors.

Loans – credit funds and interest accrued on them attracted by the commercial banks from other sectors.

Financial derivatives reflect unrealized losses or deferred gains on forward transactions, swaps and revaluation of options and futures.

Shares and other equity include authorized, added and reserve capital, devaluation reserves, and retained earnings of commercial banks.

Other items (net) – the difference between unclassified assets and liabilities.

Table 2.3. Depository corporations (banking system) survey

Depository corporations survey consolidates Central bank survey and Other depository corporations survey. Consolidation process carried up by elimination all mutual claims and liabilities between the Central bank and commercial banks and aggregation of their operations with other sectors of the economy and nonresidents. Depository corporations survey is compiled monthly and contains the following main components as follows.

Net foreign assets represent the difference between all foreign assets (claims on nonresidents and monetary gold) and all foreign liabilities (liabilities to nonresidents) of depository corporations.

Monetary gold is gold that meets international standards.

Claims on nonresidents are depository corporation's foreign currency holdings in cash, funds on correspondent accounts, deposits and interest accrued on them as well as loans and interest accrued on them, investments and advance payments to nonresidents. Indicator includes SDRs holdings and reserve position in the IMF.

Liabilities to nonresidents are deposits and loans as well as interest accrued on them attracted by depository corporations, and subordinated debts and SDRs allocations.

Domestic claims is the sum of the net claims of depository corporations on central government and claims on other sectors.

Net claims on central government represent the difference between the claims and liabilities of depository corporations to central government.

Claims on central government include loans extended by depository corporations to central government and interest accrued on them as well as securities issued by central government owned by depository corporations.

Liabilities to central government – loans extended by central government to depository corporations, funds of central government on deposit accounts in depository corporations, and interest accrued on them.

Funds of Fund for Reconstruction and Development – funds placed in and loans extended to the depository corporations by Fund for Reconstruction and Development as well as interest accrued on them.

Claims on other sectors are claims of depository corporations on other financial corporations, state and local government, public nonfinancial corporations, and private sector.

Claims on other financial corporations – loans extended by depository corporations to other financial corporations and interest accrued on them, advance payments made by the Central bank to other financial corporations as well as securities issued by other financial corporations owned by depository corporations and other financial claims.

Claims on state and local government – loans extended by depository corporations to state and local government and interest accrued on them, advance payments made by depository corporations to state and local government, and other financial claims.

Claims on public nonfinancial corporations – are loans extended by depository corporations to public nonfinancial corporations and interest accrued on them, advance payments made by depository corporations to public financial corporations as well as securities issued by public nonfinancial corporations owned by depository corporations and other financial claims.

Claims on private sector – loans extended by depository corporations to private sector (other nonfinancial corporations, households and others) and interest accrued on them, advance payments made by depository corporations to private sector as well as securities issued by private sector owned by depository corporations and other financial claims.

Broad money liabilities include currency outside depository corporations, transferable deposits, other deposits, and securities other than shares.

Currency outside depository corporations include cash issued by the Central bank with the exception of cash in national currency in vault of the Central bank and commercial banks.

Transferable deposits – demand deposits of other financial corporations, public nonfinancial corporations and private sector in depository corporations as well as interest accrued on them.

Other deposits – funds of other nonfinancial corporations, public nonfinancial corporations and private sector on savings, time and other deposit accounts in depository corporations as well as interest accrued on them.

Securities other than shares are saving and time deposit certificates issued by depository corporations and interest accrued on them, owned by other financial corporations, public nonfinancial organizations and private sector.

Deposits excluded from broad money – transferable, savings and time deposits of state and local government held in depository corporations.

Securities other than shares excluded from broad money – bonds issued by depository corporations owned by other sectors.

Loans – credit funds and interest accrued on them attracted by the depository corporations from other sectors.

Financial derivatives reflect unrealized losses or deferred gains on forward transactions, swaps and revaluation of options and futures.

Shares and other equity include authorized, added and reserve capital, devaluation reserves, and retained earnings of depository corporations.

Other items (net) – the difference between unclassified assets and liabilities.

Table 2.4. Monetary aggregates

Monetary aggregates are compiled monthly on the base of balance sheets of the Central bank and consolidated balance sheets Other depository corporations (commercial banks). Monetary aggregates contain the following main components as follows.

Broad money (M2) includes Money supply in national currency and deposits in foreign currency.

Money supply in national currency includes Narrow money (M1) and other deposits in national currency.

Narrow money (M1) includes currency in circulation and transferable deposits in national currency.

Currency in circulation (M0) includes currency in cash issued by the Central bank with the exception of national currency cash in vault of the Central bank and commercial banks.

Transferable deposits in national currency – demand deposits in national currency of other financial corporations, public nonfinancial corporations, and private sector (other nonfinancial corporations, households and others) in depository corporations as well as interest accrued on them.

Other deposits in national currency – savings, time and other deposits in national currency of other financial corporations, public nonfinancial corporations, and private sector in depository corporations as well as interest accrued on them.

Foreign currency deposits – transferable deposits, savings, time and other deposits in foreign currency of other financial corporations, public nonfinancial corporations and private sector in depository corporations as well as interest accrued on them.

Section III. Main indicators and instruments of the Central bank Monetary policy

Table 3.1. Policy rate

Policy rate serves as an indicator of interest rates for loans extended to commercial banks and credit expenses for the borrowers.

Changes of the policy rate affect the interest rate of the interbank money market.

Tables 3.2-3.6. Required reserve ratios

Required reserves – funds in national and foreign currency deposited by commercial banks on a mandatory basis in separate account opened in Central Bank. The Central bank establishes the ratios in relation to the reserved obligations of a commercial bank.

The amount of required reserves is determined through multiplying the required ratio by average amount of reserved liabilities for the accounting period.

Table 3.7. Balance of the required reserves

Balance of required reserves - balances of required reserves in national and foreign currency at a certain date deposited by commercial banks in a separate account opened in the Central bank.

Table 3.8. Bonds issued by Central bank and placed between commercial banks

The bonds of the Central Bank of the Republic of Uzbekistan must be placed between commercial banks in order to increase the liquidity of the banking system and the percentage of monetary policy. These bonds are issued for the maturity of one year in accordance with the Regulation “On the procedure for the issue and conversion of bonds of the Central Bank of the Republic of Uzbekistan” (registration number 3080, dated October 25, 2018).

Information about the auction is published on the official website of the Central bank not later than a working day before the date of auction.

Bonds of Central bank – securities issued by Central bank electronically to owners to earn income in accordance with the established procedure.

Coupon period – the period specified by Central Bank to pay interest income to bond owner.

Trade system – automated electronic system of the currency exchange to organize e-commerce on bonds, taking into account the bonds and the implementation of customs and settlements on concludes.

Dealer – operations of commercial banks related to bonds based on a general agreement with the Central bank and foreign exchange.

Auctions – trade organized by Central bank to place bonds between commercial banks.

Tables 3.9-3.10 Results of the Central bank deposit, swap, REPO auctions and overnight deposit

Deposit auctions of the Central bank of the Republic of Uzbekistan are held in accordance with the Regulation “On the procedure for carrying out deposit operations of the Central bank of the Republic of Uzbekistan with commercial banks” (registration number 3079, dated October 25, 2018), swap auctions are held in accordance with the Regulation “On the procedure for carrying out currency swap by banks” (registration number 1839, dated June 28, 2008) and REPO auctions are held in accordance with the Regulation “On the procedure for concluding and executing REPO transactions with government securities of the Republic of Uzbekistan” (registration number 1829, dated March 15, 2008).

These operations of the Central bank of the Republic of Uzbekistan with commercial banks are carried out by the Central bank by attracting funds to deposits or providing funds to commercial banks in order to influence the liquidity of commercial banks.

Information about the deposit auction is published on the official website of the Central bank not later than a working day before the date of auction.

Deposit auction – public auctions conducted by the Central bank and held between commercial banks in order to attract funds of commercial banks.

REPO and swap auctions – public auctions conducted by the Central bank and held between commercial banks in order to prevent deviation of interest rates in the interbank money market from the key rate or interest rate corridor.

Auction period – period set for the storage of deposits attracted by the Central bank from commercial banks through the auction.

Maximum amount of attracted deposits – reflects the maximum possible amount of funds established by the Central bank that can be raised from commercial banks at the deposit auction.

Maximum amount of offered funds – maximum possible amount of funds offered by the Central bank that can be given to commercial banks at the REPO and swap auctions.

Amount of deposits offered by banks – amount of funds to be placed on deposits with the Central bank, offered by commercial banks at the auction.

Minimum interest rates offered by banks – minimum interest rates for funds placed on deposits with the Central bank, offered by commercial banks at the auction.

Maximum interest rates offered by banks – maximum interest rates for funds placed on deposits with the Central bank, offered by commercial banks at the auction.

Cut-off rate – the maximum interest rate offered on the basis of satisfied competitive applications of commercial banks based on results of the deposit auction and minimum interest rate for the REPO and swap auctions.

Weighted average rate – determined on the basis of interest rates and attracted volumes of competitive applications, fully or partially satisfied by the results of the auction.

Amount of attracted deposits – total amount of funds attracted by the Central bank from commercial banks, according to results of conducted deposit auction.

Amount of provided funds – total amount of funds provided by the Central bank to the commercial banks, according to the results of the REPO and swap auctions.

Overnight deposit – operations, established by Central bank, carried out in the lower borders of the corridor and for the period of one day to prevent sharp vibration of interest rates in financial market and to attract liquidity of commercial banks to the Central bank.

Table 3.11. Exchange rates of foreign currencies against UZS

Official exchange rates of foreign currencies to Uzbek sum (UZS) are published daily on the official website of the Central Bank of the Republic of Uzbekistan (<http://www.cbu.uz>). Exchange rates are

published for the purposes of accounting, statistical and other reporting on currency transactions, as well as for implementation of customs and other mandatory payments.

The exchange rate of US dollar to UZS is calculated as a weighted average based on the daily rates formed on the currency exchange and the volume of transactions conducted using these rates.

Exchange rates for other currencies are calculated using the cross rate method which fixes US dollar as the base currency. The source of other countries exchange rates against US dollar is the Thomson Reuters information system.

Section IV. Financial markets

4.1. Interbank money market

Table 4.1.1. Interbank deposit operations in national currency

Placement of national currency deposits on the interbank money market is carried out in accordance with the Regulation "On the procedure for transactions conducted on the interbank money market via the electronic trading platform" (registration number 3010, dated May 12, 2018).

These transactions are conducted by the Central Bank for purposes of monetary policy, as well as by commercial banks to ensure their liquidity or to generate income through the placement of funds.

Attraction and placement of deposits on the interbank money market is carried out through an integrated electronic trading platform.

This table shows the dynamics of the total amount of funds placed by commercial banks on interbank money market, their weighted average interest rates and the balance of deposits at the end of the period.

The weighted average interest rate on interbank deposits is defined as the ratio of the scope of each attracted deposit amount in the reporting period multiplied by its annual interest rate to the total amount of attracted deposits, calculated by the following formula:

$$P_{AV} = \frac{\sum_{t=1}^n (V_t * P_t)}{\sum_{t=1}^n (V_t)},$$

Where:

P_{AV} – weighted average interest rate;

V_t – amount of deposit t;

P_t – annual interest rate on deposit t.

4.2. Foreign exchange market

Table 4.2.1. Trades at the Uzbekistan republican currency exchange

Foreign currency purchase and sale operations in the Uzbekistan republican currency exchange are carried out in accordance with the Regulation "On the procedures of foreign currency purchase and sale operations in over-the-counter currency market" approved by the resolution of the Cabinet of Ministers of the Republic of Uzbekistan dated July 10, 2001, number 294.

This table reflects dynamics of foreign currency bought and sold by commercial banks on foreign currency exchange.

In addition, table 4.2.1 shows average exchange rates of foreign currency which are defined as the ratio of the sum of the rates of each trading day against the number of trading days

Tables 4.2.2–4.2.3

These tables show dynamics of number and total amount of purchase and sale foreign currency operations, as well as in context of currencies conducted by commercial banks with individuals and individual entrepreneurs.

Section V. Credit institutions performance

5.1. General information

Table 5.1.1. Number and structure of credit institutions

This table provides information on the number and structural divisions of credit institutions, including banks and non-bank credit institutions registered in the Republic of Uzbekistan.

In accordance with the Laws of the Republic of Uzbekistan "On the Central Bank of the Republic of Uzbekistan" and "On banks and banking activities" the Central Bank issues licenses to credit institutions to carry out their activities.

Credit institutions – banks, microcredit organizations, pawnshops and other credit organizations that have the appropriate license.

Bank (commercial bank) – a legal entity that is a commercial organization which carries out a set of the following activities defined as banking activities: opening and maintaining bank accounts, conducting payments, attracting funds from legal entities and individuals to deposits, and providing loans.

Branch of commercial bank – a separate structural division of a commercial bank, which is not a legal entity, that performs banking operations on behalf of commercial bank and acting in accordance with the authority delegated to it by the commercial bank.

State-owned banks – banks with the state share in authorized capital, this share should be not less than 50 percent.

Microcredit organization – a legal entity engaged in services of granting microcredit, microloan, micro lease, as well as providing other microfinance services in accordance with the legislation.

Pawnshop – a specialized legal entity that provides individuals with short-term loans secured by personal assets intended for personal consumption.

Banking service centres (service offices and mini-banks) – a structural division located outside of the commercial bank's branch, operating in accordance with the regulations of the Central bank. Banking services office may have various names ("Mini-bank", "Retail services center", "Banking services center", and others).

24/7 self-service offices – software and hardware technical tools located outside of the commercial bank's branch, designed to provide services for withdrawing funds from plastic cards in national currency and international plastic cards, transfers of cash in national currency to plastic cards, as well as for various payments in uninterrupted (24-hour) mode.

Table 5.1.2. Main indicators of commercial banks performance

This table presents the dynamics of the main indicators of commercial banks divided by banks with State ownership and other banks, including the volume of their assets, loans, deposits and capital, as well as part of these indicators which consists of foreign currency, is given in the equivalent of the national currency.

Assets – cash and other payment documents, funds to be received from the Central Bank and other banks, investments, securities, credit investments, leasing and factoring operations, fixed assets and intangible assets, accrued interest on assets, accrued non-interest income, currency positions, other own property of the bank and other assets.

Loans (credit investments) – short-term (up to 1 year from the date of issue) and long-term (over 1 year from the date of issue) loans allocated in accordance with the lending rules and the loan agreement to enterprises, organizations, institutions, business partnerships and companies, regardless of ownership, Government, budget organizations, other commercial banks, individuals, individual entrepreneurs, as well as

leasing and factoring operations carried out with them (except for the Government, budget organizations and individuals).

Deposits – transferable deposits, savings and time deposits of the Government and budget organizations on extra-budgetary funds, extra-budgetary funds, enterprises, organizations, institutions, business partnerships and companies, regardless of ownership form, individuals, individual entrepreneurs and other customers, as well as saving and deposit certificates issued by banks.

Capital (equity) consists of authorized capital, capital surplus, reserve capital and retained earnings.

Table 5.1.3. Banking system indicators to GDP ratio

This table shows the ratios of banking system indicators, in particular ratios of banking assets, credit investments, deposits and capital to the gross domestic product of the country.

For other indicators reflected in present table, see methodological comment to table 5.1.2.

Table 5.1.4. Capital adequacy of banking sector

This table shows the dynamics of capital adequacy indicators in banking system.

Requirements for banking capital adequacy are regulated in accordance with Regulation "On requirements to commercial banks capital adequacy" (registration number 2693, dated July 6, 2015).

Regulatory capital – the bank's capital calculated for the purposes of regulation of banking activities and calculation of economic standards.

Regulatory capital consists of Tier I capital and Tier II capital.

Tier I capital includes Main capital stock and Tier I capital surplus.

Main capital stock should be at least 60 percent of the bank's regulatory capital and should include the following:

a) fully paid ordinary shares or funds equated to ordinary shares in case of the reorganization of the bank in form different from the joint-stock company;

b) capital surplus – the amount paid in excess of the nominal value of ordinary shares at their initial placement;

c) retained earnings (loss):

capital reserves formed on the balance sheet of the bank at the expense of retained earnings of previous years and other reserves (except property received for free and estimated excess value of fixed assets and intangible assets over their original value);

retained income of previous years except for the amount of unpaid dividends;

uncovered losses of previous years and current year losses;

d) shares of minority shareholders in enterprises incorporated to consolidated balance sheet of the bank. This share occurs when accounts of subsidiaries are consolidated in the financial statements of the bank and the bank's share in the capital of such enterprises is less than 100 percent;

e) devaluation reserve. This reserve is formed from funds allocated from retained earnings to cover liabilities of the bank in case of significant impairment (devaluation) of the national currency.

Tier I capital surplus includes the following:

a) fully paid non-cumulative perpetual preference shares;

b) capital surplus – the amount paid in excess of the nominal value of preference shares at their initial placement;

c) funds issued by subsidiaries and held by third parties equated to capital and subject to the conditions for inclusion in Tier I capital surplus, as well as the shares of minority shareholders in enterprises incorporated to consolidated balance sheet of the bank (except included in paragraph "d" of the previous part).

Tier II capital includes the following:

a) net profit of the current year, in case if bank's interim financial report audited – in amount not more than the approved financial results, otherwise – 50 percent of net profit stated in report;

b) reserves shaped on standard loans (assets) in amount of not more than 1,25 percent of risk-weighted assets after deductions;

c) mixed type liabilities (instruments including characteristics of equity and debt capital) in amount not exceeding one third of the Tier I capital after deductions;

d) subordinated debt is a form of bank's debt obligations, which shall not exceed one third of the Tier I capital after the adjustment calculations of the bank's capital. Subordinated debt, which is part of Tier II capital, should support following requirements:

not to be secured by pledge;

in case of liquidation, the claims under these obligations should be fulfilled after satisfaction of claims from depositors and other creditors of the bank;

the initial maturity should be more than 5 years;

not to be pledged by the bank or connected with it persons as a guarantee or security for other assets, as well as the order of its repayment (subordination) should not be changed by any agreements in case of bank liquidation, that is not to be equated with claim of depositors and creditors of the bank;

should be subject to early return with permission of the Central bank.

e) 45 percent of the excess amount of assessed assets value over their initial cost.

Capital adequacy ratio (regulatory capital adequacy ratio) is calculated as the ratio of regulatory capital to total amount of risk-weighted assets.

Total amount of risk-weighted assets is defined as the sum of assets on the balance sheet and off-balance weighted by the risk after deductions.

Ratio of regulatory Tier I capital is calculated as the ratio of Tier I capital to total amount of risk-weighted assets.

Table 5.1.5. Liquidity dynamics of banking sector

This table provides information on compliance of commercial banks with liquidity requirements introduced by the Central bank.

Requirements to liquidity indicators are regulated by Regulation "On liquidity management requirements of commercial banks" (registration number 2709, dated 13 August 2015).

Liquid assets include assets, which value formed by market and for which it is easy to find a buyer who will pay a market price for this asset in a short time, as well as assets sold and purchased on a permanent basis without unforeseen (undesirable) losses.

Highly liquid assets include the following:

cash;

gold bullion;

Government securities and Central bank securities;

securities issued by governments and central banks of low-risk countries, as well as other financial claims to such governments and central banks;

funds in accounts opened at the Central bank, with exception of required reserves accounts;

liquid assets allocated in banks of low-risk countries that have investment ratings of rating companies "Standard & Poor's", "Fitch Ratings" and "Moody's Investors Service" or similar ratings of other rating companies recognized by the Central bank.

Current liquidity ratio is defined as the ratio of current assets amount (liquid assets and investments with maturity up to 30 days, except for extended or overdue loans) to amount of current liabilities (demand liabilities and liabilities with maturity up to 30 days). This ratio should comprise at least 30 percent.

Liquidity coverage ratio is defined as the ratio of highly liquid assets to total net expenditure over the next 30 days and should comprise at least 90 percent beginning from January 1, 2017 and at least 100 percent starting from January 1, 2018.

Net stable funding ratio is defined as the ratio of existing amount of stable funding to the required amount of stable funding, the minimum requirement of this ratio is 100 percent.

Existing amount of stable funding includes following:

total capital;

bank liabilities with effective repayment period of 1 year or more;

30 percent of the amount of other deposits and debt funds with unspecified repayment period;

30 percent of the amount of other deposits and debt funds with repayment period up to 1 year.

Required amount of stable funding includes following:

bank assets with remaining maturity of 1 year or more, including non-performing loans and non-financial assets (land, buildings, furniture, computers and cars);

assets in legal proceedings or not recovered in accordance with established procedure;

30 percent of other assets with maturity up to 1 year, excluding liquid assets with maturity up to 1 year or without maturity;

15 percent of the amount of off-balance sheet items.

Immediate liquidity ratio is defined as the ratio of bank's cash and other payment documents, as well as funds in the Central bank (except for the funds on required reserves account) to the amount of demand liabilities. This ratio should compose at least 10 percent.

Table 5.1.6. Income and expense of banking sector

This table reflects the dynamics of income and expenses of banking system.

Interest income – income derived from cash or cash equivalents, which includes interest income on accounts with the Central bank and other banks, as well as interest income derived from securities or investments in securities, credit and leasing operations and other interest income.

Interest income includes the amount of depreciation of any discount, premium or other difference between the original book cost of debt security or loan and the amount of repayment.

Interest expense – expenses derived for the use of cash or cash equivalents, which include interest expenses on attracted deposits, accounts payable to the Central bank and other banks, loans received, securities and REPO transactions with securities, outstanding bank acceptances and other interest expenses.

Interest expense includes the amount of depreciation of any discount, premium or other difference between the original book cost of debt security or borrowed funds and the amount of repayment.

Interest margin – the difference between interest income and interest expense.

Non-interest income – income received by bank for services rendered and commissions, profit in foreign currency, profit from commercial operations, profit and dividends from investments, as well as other non-interest income.

Non-interest expenses – expenses incurred by bank for received services and commission expenses, losses in foreign currency, losses from commercial operations, losses from investments and other non-interest expenses.

Operating expense – expenses related to banking operations, including wages and other employees related expense, rental and living expenses, transportation and travel expenses, administrative expenses, representation and charity expenses, depreciation expenses, insurance, taxes and other expenses, expenses for assessment of possible losses and income tax, as well as other operating expenses.

Non-interest income (loss) – the difference between non-interest income and non-interest and operating expenses.

Allowance for probable loan and leases losses – amount of assessment of possible losses on loans and leasing.

Evaluation of non-credit losses – amount of assessment of possible losses on other assets.

Net profit (loss) before tax – amount of net profit (loss) received before tax payments according to financial performance of the bank for the reporting period.

Expense regarding income tax – bank expense on income-tax payments.

Other adjustments to income – any other adjustments to banks financial performance made in accordance with accounting principles.

Net profit (loss) – net profit (loss) received as a result of financial performance of the bank after tax payments and adjustments on profit.

Table 5.1.7. Profitability indicators of banking sector

This table reflects the dynamics of profitability indicators of banking system, including the profitability ratio of assets and capital.

For other indicators reflected in present table, see methodological comments to table 5.1.6.

Table 5.1.8 Financial Soundness Indicators of banking system

This table reflects financial stability indicators of banking system, including indicators of banking capital adequacy, asset quality, return on assets and capital, liquidity and series of other indicators.

Capital – bank capital which is used for calculation of prudential norms and conducting banking regulation and supervision.

Tier I capital – the sum of Tier I additional capital and Tier I main capital net of deductions.

Risk weighted assets – the sum of assets which are calculated through multiplying the asset balance to its relevant risk weight.

Total loans – the sum of all loans, microloans, overdrafts, leasing, factoring, securities purchased upon REPO transactions, liabilities of clients on unpaid acceptances and accrued interest on assets.

Nonperforming loans – loans classified as "unsatisfactory", "doubtful" and "bad".

Nonperforming loans net of provisions – the amount of loans classified as non-performing minus the amount of provisions formed for such loans.

Total assets (average for the period) – amount calculated as arithmetic mean of assets at the end of each month of the reporting period.

Capital (average for the period) – amount calculated as arithmetic mean of capital at the end of each month of the reporting period.

Short-term liabilities – liabilities of banks with maturity period up to 1 year.

Net open position in foreign exchange – the difference between total foreign exchange assets and total foreign exchange liabilities.

Large exposures – the sum of risks which exceeds 10% of the bank's Tier I capital.

For other indicators reflected in present table, see methodological comments to tables 5.1.2 and 5.1.4–5.1.6.

Table 5.1.9. Non-performing loans of commercial banks (NPL)

This table reflects the dynamics of non-performing loans of commercial banks by all banks namely banks with state ownership and banks without state ownership.

For other indicators reflected in present table, see methodological comments to table 5.1.8.

Table 5.1.10. Comparative indicators of banking system

This table shows the dynamics of comparative indicators for commercial banks assets and liabilities reflected in context of all banks, including banks with banks with state ownership and other banks.

Liabilities – transferable deposits, savings and time deposits, funds on bank cards, accounts payable to the Central bank and other banks, loans and leases received, revenues and other earnings of the Government, accrued interest and taxes payable, managerial checks and outstanding acceptances, securities sold under REPO transactions, securities issued by the bank and other liabilities.

For other indicators reflected in present table, see methodological comment to table 5.1.2.

Table 5.1.11. Consolidated balance of commercial banks

This table provides information on consolidated balance sheet of commercial banks, its structure and dynamics of indicators.

Assets – see methodological comment to table 5.1.2.

Cash and other cash items – cash, banknotes, coins and other payment documents held at the cashbox of banks and their branches.

Due from Central bank of Uzbekistan – funds allocated in the Central bank for interbank settlements, funds transferred to required reserves account with the Central bank and other deposits.

Due from other banks - residents – funds allocated in banks operating in the territory of the Republic of Uzbekistan.

Due from other banks - non-residents – funds allocated in banks operating outside the territory of the Republic of Uzbekistan.

Investments – see methodological comment to table 1.1.

Securities – nominal balances of government securities and securities of other corporations or certificates of deposit acquired in connection with commercial activity of banks.

Credit investments – see methodological comment to table 5.1.2.

Fixed assets – tangible assets which are used in banks activity while rendering of banking services, for rental purposes or for administrative purposes. Fixed assets include buildings, structures, equipment and devices, computers, furniture, computing machinery, vehicles and others.

Accrued interest receivable – accrued, but not recovered interest on assets (as well as on other operations that are essentially loans).

Other real estate owned – real estate owned by bank and other private property used for banking purposes or property recovered by bank against repayment of loans and by other reasons.

Other assets – assets that do not fall under mentioned classification.

Liabilities – see methodological comment to table 5.1.10.

Deposits – see methodological comment to table 5.1.2.

Due to Central bank of Uzbekistan – funds of the Central bank remaining on correspondent and deposit accounts opened in commercial banks.

Due to other banks - residents – funds of resident banks remaining on correspondent and deposit accounts opened in banks of the Republic of Uzbekistan.

Due to other banks - non-residents – funds of non-resident banks on correspondent and deposit accounts opened in banks of the Republic of Uzbekistan.

Credit and leasing operations payable – short-term (up to 1 year from the date of receipt) and long-term (over 1 year from the date of receipt) loans received from the Central bank and other banks, the Government, funds under the Ministry of Finance and extra-budgetary funds, non-bank financial institutions and other creditors, lease liabilities to other banks and lessors.

Securities released – bonds and other securities issued by banks.

Accrued interest payable – accrued but not paid by bank interest on its liabilities.

Other liabilities – liabilities that do not fall under mentioned classification.

Authorized capital stock reflects the aggregate of contributions (in monetary terms) made according to constituent documents.

Capital surplus reflects additional paid capital received during the initial sale of shares at prices exceeding the nominal value, as well as the exchange rate difference arising in the process of authorized capital formation, the equivalent of which is expressed in foreign currency.

Reserve capital reflects the inflationary reserves formed during the revaluation of long-term assets, deductions from net profit in the sizes stipulated by legislation and constituent documents, as well as the cost of property received free of charge.

Retained earnings reflect the accumulation of profits which could be included to authorized capital stock by the decision of owners. See also methodological comment to table 5.1.4.

Table 5.1.12. Main performance indicators of commercial banks grouped by asset size

This table shows main performance indicators of banks grouped by the size of their assets.

For other indicators reflected in present tables, see methodological comments to tables 5.1.2, 5.1.4 and 5.1.6.

Table 5.1.13. Commercial banks grouped by capital size

This table shows the dynamics of indicators on total and authorized capital of banks by grouping these indicators according to their volume.

For other indicators reflected in present table, see methodological comments to tables 5.1.2 and 5.1.11.

Table 5.1.14. Consolidated balance of microfinance organizations

This table provides information on consolidated balance sheet of microcredit organizations, its structure and dynamics of indicators.

Assets – cash and other payment documents, funds in banks, loans and micro lease, fixed assets, accrued interest on assets and other assets.

Cash and other cash items – cash in the form of banknotes and coins.

Due from banks – deposits and other funds allocated in banks.

Loans – short-term (up to 1 year from the date of issue) and long-term (over 1 year from the date of issue) microloans allocated issued to individuals and individual entrepreneurs, and short-term (up to 1 year from the date of issue) and long-term (over 1 year from the date of issue) microcredit allocated to legal entities as well as micro lease, factoring operations and others.

Fixed assets, net – tangible assets which are used in the course of activities, for rental purposes or for administrative purposes. Fixed assets include buildings, structures, equipment and devices, computers, furniture, computing machinery, vehicles and others.

Accrued interest receivable – accrued but not received interest on assets (as well as interest accrued on other operations, that are essentially loans (microloans, microcredits, micro lease)).

Other assets – assets that do not fall under mentioned classification.

Liabilities – borrowed funds, loans and lease received, accrued interest and taxes payable and other liabilities.

Credit and leasing operations payable – short-term (up to 1 year from the date of receipt) and long-term (over 1 year from the date of receipt) loans received from banks, state funds, non-bank financial institutions, non-governmental non-profit organizations, international financial institutions, foreign investors and other creditors, liabilities on lease to banks and other lessors.

Accrued interest payable – accrued but not paid interest on borrowed funds, on funds attracted from founders and other investors, received loans, leasing and other obligations.

Accrued taxes payable – accrued income tax and other taxes, deducted taxes payable, deferred taxes, and accrued single social payment and settlements with funds.

Other liabilities – liabilities that do not fall under mentioned classification.

Capital includes authorized capital, reserve capital, retained earnings and utilized grant funds.

Authorized capital reflects the aggregate of contributions (in monetary terms) made according to constituent documents.

Reserve capital – funds allocated from retained earnings for broad purposes, the value of property received free of charge from founders, the excess amount of fixed assets and intangible assets over their original price occurred as a result of significant increase of their market value.

Retained earnings – undistributed profit (loss) received as a result of financial activity of previous financial years, net profit (loss) received as a result of financial activity during the reporting year, as well as the amount of declared dividends during this period.

Table 5.1.15. Main performance indicators of microfinance organizations (MFO) grouped by asset size

This table shows main performance indicators of microcredit organizations, grouped according to the size of their assets.

For indicators reflected in present table, see methodological comment to table 5.1.14.

Table 5.1.16. Microfinance organizations (MFO) grouped by capital size

This table shows the dynamics of indicators on total and authorized capital of microcredit organizations grouping these indicators according to their volume.

For indicators reflected in present table, see methodological comment to table 5.1.14.

Table 5.1.17. Consolidated balance of pawnshops

This table provides information on consolidated balance sheet of pawnshops, its structure and dynamics of indicators.

For indicators reflected in present table, see methodological comment to table 5.1.14.

Table 5.1.18. Main performance indicators of pawnshops grouped by asset size

This table shows main performance indicators of pawnshops, grouped according to the size of their assets.

For indicators reflected in present table, see methodological comment to table 5.1.14.

Table 5.1.19. Pawnshops grouped by capital size

This table shows the dynamics of indicators on total and authorized capital of pawnshops grouping these indicators according to their volume.

For indicators reflected in present table, see methodological comment to table 5.1.14.

5.2. Borrowings

Tables 5.2.1–5.2.7

These tables reflect the dynamics of the total volume and balances of deposits in national and foreign currency attracted by commercial banks from individuals and legal entities, split by their types and terms.

These tables are compiled on the base of reports provided by commercial banks operating in the Republic of Uzbekistan.

Deposits – see methodological comment to table 5.1.2.

Demand deposits – deposits returnable upon first demand. Funds on bank cards (except for term and savings deposits on electronic bank cards) are considered as demand deposits.

Savings deposits – deposits accumulated on the basis of certain conditions and for a certain purposes, with the right to make additional payments to initial amount of the deposit in the manner stipulated in deposit agreement with bank. Savings deposits can have special-purpose, or be premium, conditional and subject to other conditions.

Time deposits – deposits attracted with the condition of return after at the date specified in deposit agreement with the bank.

Time deposits can be short-term and long-term. In this case, short-term deposits are considered as accepted funds for a period of up to 1 year, and long-term are those deposits accepted for a period of more than 1 year.

Tables 5.2.8–5.2.9

These tables reflect weighted average annual interest rates on deposits attracted by commercial banks from individuals and legal entities in national and foreign currency.

The weighted average interest rate on deposits is defined as the ratio of the scope of each attracted deposit amount in the reporting period multiplied by its annual interest rate to the total amount of attracted deposits, calculated by the following formula:

$$P_{AV} = \frac{\sum_{t=1}^n (V_t * P_t)}{\sum_{t=1}^n (V_t)}$$

Where:

P_{AV} – weighted average interest rate;

V_t – amount of deposit attracted under the deposit agreement t;

P_t – annual interest rate specified in the deposit agreement t.

5.3. Lending

Tables 5.3.1–5.3.7

These tables reflect the dynamics of the total volume and balances of loans extended by commercial banks to legal entities (except for commercial banks), individuals and individual entrepreneurs in national and foreign currency, split by term, sector and purpose.

These tables are compiled on the base of reports provided by commercial banks operating in the Republic of Uzbekistan.

Tables 5.3.8–5.3.9

These tables reflect the weighted average interest rates on loans issued by commercial banks in national and foreign currency on an annualized basis.

The weighted average interest rate on loans is defined as the ratio of the scope of each extended loan in the reporting period multiplied by its annual interest rate to the total amount of extended loans, calculated by the following formula:

$$P_{AV} = \frac{\sum_{t=1}^n (V_t * P_t)}{\sum_{t=1}^n (V_t)}$$

Where:

P_{AV} – weighted average interest rate;

V_t – amount of extended loan under the loan agreement t;

P_t – annual interest rate specified in the loan agreement t.

Tables 5.3.10–5.3.12

These tables reflect the dynamics of the number and amount of loans extended by commercial banks for financial support of individuals and small businesses, split by borrowers, main directions and sectors.

These tables are compiled on the base of reports provided by commercial banks operating in the Republic of Uzbekistan.

Table 5.3.13. Loans extended through developing family entrepreneurship programs

This table reflects the dynamics of the number and amount of loans extended through developing family entrepreneurship programs, split by directions.

This table is compiled on the base of reports provided by commercial banks operating in the Republic of Uzbekistan.

Table 5.3.14. Loans extended by commercial banks through credit lines attracted under government guarantee

This table reflects the total volume of loans extended by commercial banks through credit lines attracted under government guarantee.

This table is compiled on the base of reports provided by commercial banks operating in the Republic of Uzbekistan.

Table 5.3.15. Mortgage loans extended to individuals

This table reflects the dynamics of the number and amount of mortgage loans extended by commercial banks to individuals.

This table is compiled on the base of reports provided by commercial banks operating in the Republic of Uzbekistan.

Table 5.3.16. Loans extended to individuals

These tables reflect the dynamics of the amount and types of loans extended by commercial banks to individuals.

These tables are compiled on the base of reports provided by commercial banks operating in the Republic of Uzbekistan.

Section VI. Main indicators of the payment system

Table 6.1. Payments through the Interbank payment system

This table reflects data on transactions made through the Central bank's Interbank payment system, and shows the dynamics of the number and amount of transactions split by type of payment documents.

On the territory of the Republic of Uzbekistan settlements of among commercial banks and with the Central bank are carried out using their correspondent accounts opened in the Payment center of the Central bank.

According to legislation of the Republic of Uzbekistan, commercial banks should open correspondent accounts only in the Central bank.

The interbank payment system of the Central bank is designed to serve these correspondent accounts.

Table 6.2. Transactions effected by the Clearing system of Central bank

This table shows the dynamics of the number and amount of transactions made through the settlement and clearing system of the Central bank.

Settlement and clearing system of the Central bank is a retail payment system that serves to make payments of individuals in favor of organizations and agencies connected to this system in real time on netting principle.

Table 6.3. Transactions effected by Instant payment system of Central bank

This table reflects the dynamics of the number and amount of transactions effected by Instant payment system of Central bank.

Interbank settlements effected by **Instant payment system** online non-stop (without day-offs), 24/7.
